

(Questions continued from opposite side)

- A 60-year-old female is diagnosed with a 15 cm gastrointestinal stromal tumor in the gastric body after initially presenting with nausea and vomiting. There is no evidence of metastatic disease on imaging. What is the best management approach?
 - Surgical resection.
 - Surgical resection and adjuvant tyrosine kinase inhibitor therapy.
 - Surgical resection and neoadjuvant tyrosine kinase inhibitor therapy.
 - Surgical resection and neoadjuvant cytotoxic chemotherapy.
- All of the following are prognostic of malignancy in gastrointestinal stromal tumor except?
 - Size.
 - Ulceration.
 - Mitotic count.
 - Anatomic location.

Combination Laparoscopic Radiofrequency Ablation and Partial Excision of Hepatic Hemangioma (pp 205-207)

- Laparoscopic radiofrequency ablation (RFA) is comparable with surgical resection.
True or False
- Which of the following is false about laparoscopic RFA?
 - Is minimally invasive.
 - Is not feasible for intra-operative ultrasound scan of the liver.
 - Allows for detection of lesions.
 - Allows for accurate targeting.
- Pneumoperitoneum is dangerous in laparoscopic RFA.
True or False
- Laparoscopic RFA is suitable for subcapsular lesions or those near the gallbladder.
True or False

Breast Cancer Metastatic to the Urinary Bladder (pp 208-212)

- Metastatic breast cancer to the bladder is usually associated with pelvic involvement.
True or False
- Urinary symptoms in a patient with cancer should be evaluated.
True or False

Pathogenesis of Prostate Cancer: Lessons from Basic Research (pp 213-218)

- The five-year survival of patients with localized prostate cancer is approximately:
 - 95%.
 - 60%.
 - 30%.
 - 10%.
- Which of the following is the first-line therapy for hormone-sensitive advanced prostate cancer?
 - Luteinizing hormone-releasing hormone agonists.
 - Chemotherapy with platinum-based doublets.
 - Radiation therapy.
 - Selective estrogen-receptor modulator therapy.
- Which of the following is true regarding advanced prostate cancer?
 - Response to androgen depletion therapy is predictive of survival in patients with advanced prostate cancer.
 - The majority of patients on androgen depletion therapy develop hormone-refractory disease within 18 months of therapy.
 - Chemotherapy in combination with androgen depletion is the treatment of choice for hormone-sensitive prostate cancer.
 - All of the above.

The Ochsner Journal CME CREDIT APPLICATION FORM

MD DO Other (specify) _____

Name: _____

Business Address: _____

City: _____

County: _____ State: _____ Zip: _____

Daytime Phone: _____ Fax Number: _____

Email address: _____

Hospital Affiliation: _____

The Ochsner Clinic Foundation is required to file information for record keeping regarding awarding of CME credits. Please send your completed CME credit application form, test questionnaire, and evaluation form to: Continuing Medical Education, Ochsner Clinic Foundation, 1514 Jefferson Highway, New Orleans, LA 70121, or fax to (504) 842-4805.

VERIFICATION OF ATTENDANCE

Please indicate the actual time spent reading and completing this education activity. _____ hour(s) and _____ minutes.
The maximum number of credits awarded for this activity is 10 *AMA PRA Category 1 credits*TM.

EVALUATION

Your response to these questions helps us to enhance our CME offerings. Please take the time to respond and return the evaluation. Thank you.

Please use the following codes to answer items 1-7.

- SA – Strongly Agree
- A – Agree
- U – Undecided
- D – Disagree
- SD – Strongly Disagree

- The objectives of the CME activity were clearly stated.
SA A U D SD
- The content of the journal articles was up-to-date.
SA A U D SD
- The journal articles illustrated independence, objectivity, balance, and scientific rigor.
SA A U D SD
- The content was closely related to objectives of my clinical practice and/or teaching.
SA A U D SD

- The journal articles increased my knowledge of the subject.
SA A U D SD
- The content of the journal articles met my personal expectation and needs.
SA A U D SD
- I will apply the information learned from these journal articles in my clinical practice.
SA A U D SD

Do you have any suggestions as to how to improve the content of the journal articles?

What topics would you like to see in future journal articles?

Thank you for completing this evaluation and survey.
