The University of Queensland – Ochsner Clinical School,
and Alliance of Independent Academic Medical Centers

Neurological care that
**helps your patients
reclaim their lives.**

When your patients need advanced neurological care, rely on the Ochsner Neuroscience Institute. Ochsner Medical Center's neurology and neurosurgery programs in New Orleans have been ranked number one in the region and among the top 50 nationally in *U.S. News & World Report* for seven years in a row. The Ochsner Neuroscience Institute includes a multitude of subspecialties, treating more than 500 neurological conditions, including even the most complex, rare and difficult to diagnose.

PITUITARY DISORDERS PROGRAM

Our multidisciplinary **Pituitary Disorders Program** offers comprehensive care for patients with pituitary problems. The only multidisciplinary pituitary center in the Gulf South region:

- Connects patients with neurosurgeons, endocrinologists and ophthalmologists who can help manage their conditions
- Is committed to the precise diagnosis and effective treatment of pituitary tumors and other neuroendocrine disorders, such as Cushing's syndrome, acromegaly, prolactinomas and various hormonal imbalances

MULTIPLE SCLEROSIS PROGRAM

Our **Multiple Sclerosis Program** connects patients with proactive, comprehensive and customized care to help them manage MS symptoms and keep the disease in check. We offer:

- The latest infusion therapies
- Access to innovative clinical trials
- Routine counseling about vitamins, dietary changes, types of exercise and stress management techniques that can ease MS symptoms
- A team of experts who provide personalized treatment plans for MS, neuromyelitis optica, optic neuritis, neuroimmunological disorders, spasticity, transverse myelitis and neurological sarcoidosis

To Refer a Patient: To initiate a referral, phone consult or transfer, please contact the Ochsner Regional Referral Center 24/7 at **855.OHS.LINK (647.5465)**. Same-day and next-day appointments are available.
