

**The Ochsner Journal**  
**CME CREDIT APPLICATION FORM**

MD    DO    Other \_\_\_\_\_  
*(specify)*

Name: \_\_\_\_\_

Business Address: \_\_\_\_\_

City: \_\_\_\_\_

County: \_\_\_\_\_ State: \_\_\_\_\_ Zip: \_\_\_\_\_

Daytime Phone: \_\_\_\_\_

Fax Number: \_\_\_\_\_

E-mail address: \_\_\_\_\_

Hospital Affiliation: \_\_\_\_\_

Social Security Number: \_\_\_\_\_

The Ochsner Clinic Foundation is required to file information for record keeping regarding awarding of CME credits.

Please send your completed CME credit application form, test questionnaire, and evaluation form to:

Continuing Medical Education  
Ochsner Clinic Foundation  
1514 Jefferson Highway  
New Orleans, LA 70121

**VERIFICATION OF ATTENDANCE**

Please indicate the actual time spent reading and completing this education activity.

\_\_\_\_\_ hour(s) and \_\_\_\_\_ minutes.

The maximum number of credit hours awarded for this activity is 5 hours.

# Continuing Medical Education

## CME QUESTIONS VOLUME 6, NO.2

This section provides a review. Mark each statement (circle the correct answer) according to the factual material contained in this issue and the opinions of the authors. A score of 70% is required to qualify for CME credit.

### Article one (p.48-53)

1. A noninvasive quantitative assessment of right ventricular function can be obtained in neonates using Doppler echocardiographic techniques. *True or False*
2. Cardiovascular complications are a rarer cause of morbidity in newborns with congenital diaphragmatic hernias. *True or False*

### Article two (p.54-58)

3. The incidence of urinary incontinence after radical prostatectomy has been reported to range from 2.5 to 87%. *True or False*
4. Current artificial urinary sphincters have a mechanical failure rate of 50%. *True or False*

### Article three (p.59-63)

5. Sphincter preserving operations for rectal cancer include all of the following except
  - a. Low anterior resection
  - b. Abdominoperineal resection
  - c. Local excision
  - d. Coloanal pullthrough
6. Survival in rectal cancer is improved if patients are treated at high volume centers. *True or False*

### Article four (p.64-67)

7. In Wolff-Parkinson-White syndrome, the patient's loss of pre-excitation in a single heart beat during exercise stress testing is a predictor of low risk of sudden death. *True or False*
8. All of the following are true with respect to Wolff-Parkinson-White syndrome except
  - a. Incidence of sudden death is reported to range from 0 – 4%.
  - b. Mechanism of sudden death is ventricular fibrillation.
  - c. Exercise stress testing is not cost effective.
  - d. Evaluation of suspected patients may include stress tests and electrophysiological studies.

### Article five (p.68-83)

9. When evaluating the risk of disease with a given exposure, if the relative risk or odds ratio is greater than 1, there is a protective effect associated with the exposure. *True or False*
10. Bias is a type of systematic error which can occur in the study design, process, or analysis that may invalidate the study results. *True or False*

## EVALUATION

Your response to these questions helps us to enhance our CME offerings. Please take the time to respond and return the evaluation. Thank you.

Please use the following codes to answer items 1-7.

**AS** – Strongly Agree  
**A** – Agree  
**U** – Undecided  
**D** – Disagree  
**SD** – Strongly Disagree

1. The objectives of the CME activity were clearly stated.  
**SA A U D SD**
2. The content of the journal articles was up-to-date.  
**SA A U D SD**
3. The journal articles illustrated independence, objectivity, balance, and scientific rigor.  
**SA A U D SD**
4. The content was closely related to objectives of my clinical practice and/or teaching.  
**SA A U D SD**
5. The journal articles increased my knowledge of the subject.  
**SA A U D SD**
6. The content of the journal articles met my personal expectation and needs.  
**SA A U D SD**
7. I will apply the information learned from these journal articles in my clinical practice.  
**SA A U D SD**

Do you have any suggestions as to how to improve the content of the journal articles?
